Subject index

Adaptive feedback control, 135
AI and decision making, 73
Ames test, 31
Architecture of hospital information systems, 89
Architecture of teaching, 89
Arterial blood flow, 13
Artificial intelligence, 117, 125, 157
Automated history taking, 297

Blood pressure, 13

Cardiac metabolism, 39
Causal reasoning, 117
Chemical carcinogens, 31
Clinical information system, 193
Clinical judgement, 111
Computed tomography, 169
Computer law, 237
Computer modeling, 31
Computer networking, 193
Computer software, 39
Computer-assisted instruction, 111
Concepts of teaching, 89
Control theory in medicine, 89
Control, 135
Courseware, 333

3-D image display, 169
Database, 349
Database management system, 245, 259
Decision rules, 111
Decision support, 49, 315
Decisional trial, 89
Departmental information system, 315
Design, 49
Diagnosis, 157
Diagnostic encyclopedia, 339
Diagnostic modeling, 125
Diagnostic reasoning, 125
Diffusion bioassay, 31
Digital image network, 143
Digitizing tablet, 39
Distributed system, 193
Doctor–patient communication, 49

Education, 103
Education in medical informatics, 89
Elderly, 211
Expert systems, 327

FDA regulation, 219, 229
Fertility, 305
Fourth-generation software packages, 73
Fourth-generation software, 245, 259, 275, 281, 287, 297, 305, 315, 321, 327, 333, 339

General Practice, 287
Genetic control, 89

Health services, 211
Healthcare, 103
Hippocampal model, 3
Hospital information system, 73
Hospital pharmacy, 275

Image acquisition, 143
Image compression, 143
Image display, 185
Image processing, 143, 169
Image retrieval, 185
Image transmission, 185
Image workstations, 143
Imaging and graphics, 73
In vitro dissolution data, 23
Informatics, 117
Information system, 245, 259, 305, 327
Intensive care unit, 321
Interactive, 103
Interpreter, 349

Knowledge-based systems, 49

Legal, 219, 229
Liability, 219, 237
Linear models, 111

Management information system, 321
Mean residence time, 23
Medical computer software, 219
Medical device, 219, 229, 237
Medical diagnosis, 117
Medical education, 73
